Yesterday's animal intake log.

The alligator was actually picked up on April 10th. I will have Rhonda revise this tonight.
Everything else looks correct.

All:

I have attached the Animal Intake Log for today, April 14, 2019.

We did have a call to pick up a raptor at the Total Facility this evening and have just finished caring for that bird. However, it was not impacted by the current incident; it is a red-tailed hawk that is severely emaciated and requires critical rehabilitation care. I will transfer this bird to one of the rehabilitators that I work with through Bay Area Wildlife Rehabilitation for continued care.

Please note: THIS BIRD WILL NOT BE LISTED IN DOCUMENTATION FOR THE 2ND 80'S FIRE.

Have a great evening and call with any questions.

Please forward this document as required.

Best Regards -
